Grafenberg, July 3, 2017. Jochen Reiff has been appointed the new Managing Director of RAMPF Tooling Solutions. He will now work in tandem with long-standing Managing Director Heinz Horbanski until the latter retires in 2019. This ensures a smooth and seamless transition at the global market leader for board and liquid materials.

“I am looking forward to working with Heinz Horbanski to continue the success story of RAMPF Tooling Solutions,” says Jochen Reiff. “Developing first-class products and solutions, working closely in a trusting relationship with customers and partners, and the outstanding working atmosphere at RAMPF all make this position something very special.”

Since September 2013, Jochen Reiff has been responsible for the global sales strategy at RAMPF Tooling Solutions in his role as Head of Sales and Marketing. Prior to this, the qualified industrial engineer held leading sales positions in the automation technology, high voltage technology, and model and mold engineering sectors.

“Jochen Reiff has made a big impression during his time at RAMPF, making him a natural choice for the position of Managing Director,” says Michael Rampf, CEO of RAMPF Holding. “For the next couple of years, he will have Heinz Horbanski at his side – an expert with more than three decades of experience at RAMPF, and who knows the market for model, mold, and tool engineering materials better than anyone else.”

Strong team at the top – Jochen Reiff (left) and Heinz Horbanski will act jointly as Managing Directors of RAMPF Tooling Solutions.

RAMPF Tooling Solutions GmbH & Co. KG based in Grafenberg, Germany, develops and produces board and liquid materials for cutting-edge modeling and mold engineering. The range of skills includes made-to-measure services and products such as pastes, large-volume and full-size castings for Close Contour models, and prototyping systems.

RAMPF Tooling Solutions is the world's largest producer of styling, modeling, and working board materials, which demonstrate excellent quality and the best mechanical properties.

High-quality Close Contour Pastes, Close Contour Blocks, and Close Contour Castings guarantee excellent and cost-effective solutions for modeling and mold engineering.

The company produces and develops pioneering systems for the composites industry that cover a wide variety of production procedures and a broad range of temperatures.

It goes without saying that RAMPF Tooling Solutions also provides expert advice, customer-specific service, and prompt technical support.

RAMPF Tooling Solutions is a company of the international **RAMPF Group** based in Grafenberg, Germany.
