Wangen (near Göppingen), October 20, 2017. RAMPF Machine Systems, an international development partner and system supplier for complete machine bed solutions and machine systems, is being led by a strong team comprising managing directors Thomas Altmann and Dirk Haumann.

The new managing directors of RAMPF Machine Systems, Dirk Haumann (left) and Thomas Altmann, are keen to further expand the product and service portfolio of the world's largest mineral casting manufacturer based in Wangen (near Göppingen, Germany).

Thomas Altmann (48) has held managerial positions in machine sales for more than 17 years and was Director of Sales and Marketing at RAMPF Machine Systems in Wangen from April to September 2017. He graduated in mechanical engineering from Esslingen University of Applied Sciences, majoring in production systems. His areas of responsibility are:

- > Sales and marketing
- > Design and development / engineering
- > Quality control

Over the past 22 years, Dirk Haumann (54) has held managerial positions at the Fraunhofer Society, automotive suppliers, consultancies, and mechanical / plant engineering companies. During this time, he has gathered extensive international experience in the fields of operational excellence, lean manage-

ment, and developing innovative production concepts. The University of Stuttgart mechanical engineering graduate is also a qualified mechanic. His areas of responsibility are:

- > Operational business
- > Purchasing and materials management / supply chain
- > Chemical laboratory and chemical development

“We’re delighted that in Thomas Altmann and Dirk Haumann we have two highly competent and experienced executives at the helm of RAMPF Machine Systems,” says Michael Rampf, CEO of RAMPF Holding. “In the years ahead, we’ll be further expanding the product and service portfolio for highly dynamic production engineering and pressing ahead with our internationalization,” he adds.

RAMPF Machine Systems supplies its customers worldwide with innovative system solutions, basic machinery, and positioning / moving systems based on machine beds and machine bed components made of high-performance materials such as mineral casting, ultra-high performance concrete, natural hard stone, and fiber composites. The company forms part of the international RAMPF Group and is the world’s largest producer of mineral casting.

RAMPF Machine Systems GmbH & Co. KG, based in Wangen (near Göppingen), Germany, is the leading supplier and development partner for system solutions, trunk machines, and basic machines, as well as multi-axis positioning and moving systems based on high-precision machine beds and machine bed components made from alternative materials.

The portfolio of high-performance materials includes mineral casting, ultra-high performance concrete (UHPC), natural hard stone, metal foam, and fiber composites. These materials provide a solid basis for ultra-precise and high-performance machine beds and machine bed assemblies.

The full range of services provided by the company includes everything from engineering to production, as well as assembly, system solutions, customer-specific multi-axis positioning and moving systems, and basic machines – from single-piece to series production in customized supply chain solutions.

Using innovative casting, grinding, and lapping processes, as well as high-performance assembly and testing equipment in temperature-controlled production environments, exceptional accuracy of machine bases and basic machines is guaranteed.

RAMPF Machine Systems is a company of the international **RAMPF Group** based in Grafenberg, Germany.
