**Grafenberg, Germany, December 12, 2019. The RAMPF Group has been awarded the “BFK – Gesundes Unternehmen” quality label for its occupational health management program.**

Thumbs up for the health and safety of employees (from left to right) – RAMPF CEO Michael Rampf, HR Director Anja Fujan, and HR Expert Sabrina Gruschka together with Jochen Mutschler, Managing Director of PT Fitness Club Reutlingen, one of the partner companies of RAMPF’s occupational health management program.

The “BFK – Gesundes Unternehmen” certification confirms that RAMPF is implementing measures for occupational safety, mental health risk assessment, and DGUV II (accident prevention regulations), as well as providing an occupational health management (BGM) and health promotion program for its employees.

The RAMPF BGM introduced in 2016 at all German locations (Grafenberg, Zimmern ob Rottweil, Wangen, Bessenbach, Pirmasens) includes events and lectures on health-related topics, gymnastics courses and massages during the lunch break, as well as the free provision of fruit and mineral water. In addition, all employees have the opportunity to exercise in selected gyms at their respective locations.

“Whether in manufacturing, the warehouse, laboratory, or office – we want our employees to feel comfortable at work,” emphasizes RAMPF CEO Michael Rampf. “We support them in staying healthy, fit, and motivated. It is only with their dedication and creativity that we can continue the success story of our Group.”

## RAMPF is a Healthy Company

Group receives quality label for its occupational health management

The RAMPF Group stands for **engineering and chemical solutions** and caters to the economic and ecological needs of industry.

The range of competencies includes:

- > production and recycling of **materials** for modeling, lightweight construction, bonding, and protection;
- > technical **production systems** for precise, dynamic positioning and automation, as well as technologies for complex composite parts production;
- > comprehensive range of **solutions and services**, particularly for innovative customer-specific requirements.

With this know-how, RAMPF helps its customers to achieve profitable and sustainable growth.

The Group secures its presence on the international markets with more than 900 employees and six core competencies:

- > **RAMPF Machine Systems** based in Wangen (Göppingen), Germany, develops and produces multi-axis positioning and moving systems, trunk machines, and basic machines based on high-precision machine beds and machine bed components made from alternative materials.
- > **RAMPF Production Systems** based in Zimmern o. R., Germany, develops and produces mixing and dispensing systems for bonding, sealing, foaming, and casting a wide variety of materials. The company also offers a wide range of automation skills relating to all aspects of process engineering.
- > **RAMPF Composite Solutions** based in Burlington, Ontario, Canada, is a holistic composites supplier to companies in the aerospace and medical industries. The company offers a complete suite of services including composite part design and engineering, metal-to-composite conversion engineering, and composite manufacturing to very tight tolerances.
- > **RAMPF Eco Solutions** based in Pirmasens, Germany, develops chemical solutions for the manufacture of high-quality alternative polyols from PU and PET waste materials. This expertise is also put to use in the planning and construction of customer-specific facilities for manufacturing polyols.
- > **RAMPF Polymer Solutions** based in Grafenberg, Germany, develops and produces reactive resin systems based on polyurethane, epoxy, and silicone. Its product portfolio includes liquid and thixotropic sealing systems, electro and engineering casting resins, edge and filter casting resins, and adhesives.
- > **RAMPF Tooling Solutions** based in Grafenberg, Germany, develops and produces board and liquid materials for cutting-edge modeling and mold engineering. The range of skills includes made-to-measure services and products such as pastes, large-volume and full-size castings for Close Contour models, and prototyping systems.

RAMPF has subsidiaries in Germany, the U.S., Canada, Japan, and China.

All RAMPF companies are united under a holding company – RAMPF Holding GmbH & Co. KG – based in Grafenberg, Germany.
