Grafenberg, Germany, July 13, 2020. The Rudolf Rampf Foundation for the advancement of young people in Grafenberg will award funding of a total of 7,000 euros to local associations in 2020.

"I am very happy that the foundation was again able to hand over a substantial grant to the clubs in Grafenberg this year," said Rudolf Rampf. "Their commitment to young people is exemplary and strengthens our community. In particular, I would like to thank all of the volunteers for their tireless efforts. I now hope that the restrictions relating to the corona virus can be lifted further and that we can get back together again in the clubs – in full compliance with the respective safety measures, of course."

The funding was awarded for 2020 as follows:

- > TSV Grafenberg, soccer: 1,000 euros
- > TSV Grafenberg, karate: 500 euros
- > Grafenberg Tennis Club: 1,500 euros
- > Grafenberg Music Association: 1,000 euros
- > Grafenberg Harmonica Orchestra: 1,500 euros
- > Swabian Alb Association Grafenberg: 300 euros
- > Grafenberg Music School Grant for Metzingen: 1,200 euros

Personnel change in the advisory board

In May of this year, the Rudolf Rampf Foundation's advisory board held elections. The mayor of Grafenberg, Volker Brodbeck, was appointed to succeed Annette Bauer, the former mayor of Grafenberg.

The Rudolf Rampf Foundation was founded in 2001 to support young people in Grafenberg on a non-profit basis. In particular, the musical education of young people in music clubs, sports clubs, and general youth work in the municipality of Grafenberg are supported. Funds generated from the foundation capital is channeled into the youth work of local clubs and the community, and into projects that benefit young people.

The RAMPF Group stands for **engineering and chemical solutions** and caters to the economic and ecological needs of industry.

The range of competencies includes:

- > production and recycling of **materials** for modeling, lightweight construction, bonding, and protection;
- > technical **production systems** for precise, dynamic positioning and automation, as well as technologies for complex composite parts production;
- > comprehensive range of **solutions and services**, particularly for innovative customer-specific requirements.

With this know-how, RAMPF helps its customers to achieve profitable and sustainable growth.

The Group secures its presence on the international markets with more than 900 employees and six core competencies:

- > **RAMPF Machine Systems** based in Wangen (Göppingen), Germany, develops and produces multi-axis positioning and moving systems, trunk machines, and basic machines based on high-precision machine beds and machine bed components made from alternative materials.
- > **RAMPF Production Systems** based in Zimmern o. R., Germany, develops and produces mixing and dispensing systems for bonding, sealing, foaming, and casting a wide variety of materials. The company also offers a wide range of automation skills relating to all aspects of process engineering.
- > **RAMPF Composite Solutions** based in Burlington, Ontario, Canada, is a holistic composites supplier to companies in the aerospace and medical industries. The company offers a complete suite of services including composite part design and engineering, metal-to-composite conversion engineering, and composite manufacturing to very tight tolerances.
- > **RAMPF Eco Solutions** based in Pirmasens, Germany, develops chemical solutions for the manufacture of high-quality alternative polyols from PU and PET waste materials. This expertise is also put to use in the planning and construction of customer-specific facilities for manufacturing polyols.
- > **RAMPF Polymer Solutions** based in Grafenberg, Germany, develops and produces reactive resin systems based on polyurethane, epoxy, and silicone. Its product portfolio includes liquid and thixotropic sealing systems, electro and engineering casting resins, edge and filter casting resins, and adhesives.
- > **RAMPF Tooling Solutions** based in Grafenberg, Germany, develops and produces board and liquid materials for cutting-edge modeling and mold engineering. The range of skills includes made-to-measure services and products such as pastes, large-volume and full-size castings for Close Contour models, and prototyping systems.

RAMPF has subsidiaries in Germany, the U.S., Canada, China, Japan, and Korea.

All RAMPF companies are united under a holding company – RAMPF Holding GmbH & Co. KG – based in Grafenberg, Germany.
