Grafenberg, Germany, December 22, 2021. The international RAMPF Group and the professional basketball team Tigers Tübingen have signed a sponsoring partnership. The family-owned company is consequently continuing its commitment to regional sports clubs.

Successful partnership – RAMPF CEOs Michael Rampf (left) and Matthias Rampf (right) with Christoph Koppensteiner from the basketball club Tigers Tübingen.

RAMPF CEO Michael Rampf – “The Tigers have earned an outstanding reputation far beyond the city of Tübingen. The team stands for passion, team spirit, and fair play, and with this we fully identify. As a family company firmly rooted in the region, we are very happy to be involved in sports sponsoring, both on the professional and amateur level. The companies of the RAMPF Group support local clubs in handball, soccer, tennis, and athletics. It is about both the promotion of competitive sport and the social responsibility.”

Frank Fischer, Director of Human Resources & Legal at RAMPF Holding – “With this partnership we are strengthening our presence in the university city of Tübingen. We aim to make graduates, students, and trainees aware of the numerous career opportunities in the fields of chemistry, mechanical engineering, and administration. In addition to twelve apprenticeships and the degree program business administration and industry, students have the opportunity to write their bachelor’s and master’s theses with us and to do internships. Of course, we also advertise the many attractive job offers and additional benefits RAMPF has to offer.”

Christoph Koppensteiner, responsible for partnerships and cooperations at Tigers Tübingen – “We’re thrilled to welcome a new member to the Tigers family. RAMPF is a young, innovative company that fits the Tiger’s brand. In addition, RAMPF is a true hidden champion and therefore a perfect partner for the Tigers Career Day, where we offer students the opportunity to find out more about various professional perspectives and get to know companies from our region. I am sure that RAMPF can present itself effectively as an attractive employer at this event.”

The RAMPF Group stands for **engineering and chemical solutions** and caters to the economic and ecological needs of industry.

The range of competencies includes:

- > production and recycling of **materials** for modeling, lightweight construction, bonding, and protection;
- > technical **production systems** for precise, dynamic positioning and automation, as well as technologies for complex composite parts production;
- > comprehensive range of **solutions and services**, particularly for innovative customer-specific requirements.

With this know-how, RAMPF helps its customers to achieve profitable and sustainable growth.

The Group secures its presence on the international markets with more than 900 employees and six core competencies:

- > **RAMPF Machine Systems** based in Wangen (Göppingen), Germany, develops and produces multi-axis positioning and moving systems, trunk machines, and basic machines based on high-precision machine beds and machine bed components made from alternative materials.
- > **RAMPF Production Systems** based in Zimmern o. R., Germany, develops and produces mixing and dispensing systems for bonding, sealing, foaming, and casting a wide variety of materials. The company also offers a wide range of automation skills relating to all aspects of process engineering.
- > **RAMPF Composite Solutions** based in Burlington, Ontario, Canada, is a holistic composites supplier to companies in the aerospace and medical industries. The company offers a complete suite of services including composite part design and engineering, metal-to-composite conversion engineering, and composite manufacturing to very tight tolerances.
- > **RAMPF Eco Solutions** based in Pirmasens, Germany, develops chemical solutions for the manufacture of high-quality alternative polyols from PU and PET waste materials. This expertise is also put to use in the planning and construction of customer-specific facilities for manufacturing polyols.
- > **RAMPF Polymer Solutions** based in Grafenberg, Germany, develops and produces reactive resin systems based on polyurethane, epoxy, and silicone. Its product portfolio includes liquid and thixotropic sealing systems, electro and engineering casting resins, edge and filter casting resins, and adhesives.
- > **RAMPF Tooling Solutions** based in Grafenberg, Germany, develops and produces board and liquid materials for cutting-edge modeling and mold engineering. The range of skills includes made-to-measure services and products such as pastes, large-volume and full-size castings for Close Contour models, and prototyping systems.

RAMPF has subsidiaries in Germany, the U.S., Canada, Japan, China, and Korea.

All RAMPF companies are united under a holding company – RAMPF Holding GmbH & Co. KG – based in Grafenberg, Germany.
