**Grafenberg, March 25, 2022. Promoting elite sport – the RAMPF Group has agreed a sponsoring contract with the handball players of VfL Pfullingen for the coming 2022/23 season.**

Sporting partnership (left to right): Christian Weiss, Head of Handball Marketing at VfL Pfullingen, RAMPF CEOs Matthias Rampf and Michael Rampf, Armin Geffke, Head of Handball at VfL Pfullingen.

A boost for the team's promotion aspirations – just before the start of the play-off tournament to gain promotion to the second division of the handball Bundesliga, the RAMPF Group has agreed a sponsoring partnership with the handball players of VfL Pfullingen. No matter whether the team from the Echaz valley move up to the second division or continue to play in the third, they will still have a strong partner at their side in the form of the RAMPF Group, specialist for reaction resins, machine systems, and lightweight composite construction.

Michael Rampf, CEO of the RAMPF Group: "The VfL Pfullingen handball team have had a great season. True to their club motto of 'Handball with heart and passion', they have earned themselves the chance to gain promotion. As enthusiastic handball fans ourselves, and promoters of elite sport, we are looking forward to this partnership. VfL Pfullingen is a flagship sports club in the Reutlingen and Tübingen area, and this is a region where we are aiming to further boost our position as an attractive employer with exciting

job and training opportunities in the chemical, technical, and commercial sectors, with many options for further training and comprehensive benefits.”

Armin Geffke, Head of Handball at VfL Pfullingen: “We are delighted about the RAMPF Group’s decision to sponsor us. The company is a keen partner to sports, with a company philosophy that is based on the team and teamwork – one of the key success factors in the sport of handball. This partnership gives us a real boost going into the play-off tournament. After a strong season, we are full of confidence going into the group phase of the play-off tournament. We are in very good shape in sporting terms, and if we reach the promotion finals, then anything is possible. A few years ago, we already started emphasizing that we intended to dream big at Pfullingen – and we know that we have the best fans and sponsors at our side to help us do this.

**Info**

In its first game in the play-off tournament for promotion to the second division of the Handball Bundesliga, VfL Pfullingen will play HSG Krefeld Niederrhein in the Kurt-App-Halle in Pfullingen at 8 p.m. on Saturday, March 26.

The international RAMPF Group stands for **engineering and chemical solutions** and caters to the economic and ecological needs of industry with six core competencies:

- > **RAMPF Machine Systems**, based in Wangen (Göppingen), Germany, develops and produces multi-axis positioning and moving systems, trunk machines, and basic machines based on high-precision machine beds and machine bed components made from alternative materials such as mineral casting, ultra-high performance concrete, and hard stone.
- > **RAMPF Production Systems**, based in Zimmern o. R., Germany, develops and produces production systems with integrated dispensing technology for bonding, sealing, foaming, and casting a wide variety of materials. The company also boasts an extensive range of automation expertise relating to all aspects of process engineering.
- > **RAMPF Composite Solutions**, based in Burlington, Ontario, Canada, is a holistic composites supplier to companies in the aerospace, defense, transportation, medical, and green technology industries. The company offers a complete suite of services, including composite part design and engineering, and metal-to-composite conversion engineering.
- > **RAMPF Eco Solutions**, based in Pirmasens, Germany, develops chemical solutions for the manufacture of high-quality recycled polyols from polyurethane and PET waste materials. This company also designs and builds customized multi-functional plants for customers for the manufacture of recycled polyols.
- > **RAMPF Polymer Solutions**, based in Grafenberg, Germany, develops and produces reactive resin systems based on polyurethane, epoxy, and silicone. Its product portfolio includes liquid and thixotropic sealing systems, electro and engineering casting resins, edge and filter casting resins, and adhesives.
- > **RAMPF Tooling Solutions**, based in Grafenberg, Germany, develops and produces board and liquid materials for cutting-edge modeling and mold engineering. The range of skills includes made-to-measure services and products such as pastes, large-volume and full-size castings for Close Contour models, and prototyping systems.

All RAMPF companies are united under a holding company – RAMPF Holding GmbH & Co. KG – based in Grafenberg, Germany. RAMPF has more than 850 employees at sites in Germany, the United States, Canada, Japan, China, and Korea.

Diversity is a matter of course for RAMPF. In the spirit of treating all genders equally, and to improve readability, we therefore make an effort to use gender-neutral language. Any use of shorter forms of language is purely for editorial reasons.
