Grafenberg, Germany, July 20, 2022. The RAMPF Group is continuing its sponsorship commitment to the handball team of TV 1893 Neuhausen in the upcoming 2022/2023 season. It is already the 13th year of the partnership.

The handball players of TV 1893 Neuhausen will continue to wear the RAMPF logo on their jersey in the upcoming season. Thomas Reusch (Head of Handball, second from left) and Ulrich Neubrander (Deputy Head of Handball, right) from TV Neuhausen together with RAMPF CEOs Matthias Rampf (left) and Michael Rampf (second from right) at the contract signing.

The RAMPF Group has been supporting the handball department of TV Neuhausen since 2010. After finishing tenth last season, the team will again play in the Württembergliga in the 2022/2023 season that begins on September 17.

Thomas Reusch, Head of Handball at TV Neuhausen – “In these very difficult times, it’s great to have RAMPF as a trusting and reliable partner at our side. A voluntary association like us can only achieve its goals with the support of partners and sponsors. Our top priority is to get through the season injury-free. If we can do that, then the team with its new coach Mike Leibssle can certainly position itself in the upper third of the table and maybe even spring some surprises.”

RAMPF CEO Michael Rampf – “TV Neuhausen has had to face a number challenges in the past few years. Especially when going through such a difficult patch it’s important that sponsors stay on board. We did that and are happy that the team has steadily improved and is now setting more ambitious targets again. We are looking forward to the new handball season, in which we will also sponsor HBW Bal-

The RAMPF Group stands for **engineering & chemical solutions** and caters to the economic and ecological needs of industry with six core competencies:

- > **RAMPF Machine Systems** based in Wangen (Göppingen), Germany, develops and produces multi-axis positioning and moving systems, trunk machines, and basic machines based on high-precision machine beds and machine bed components made from alternative materials such as mineral casting, ultra-high performance concrete, and hard stone.
- > **RAMPF Production Systems** based in Zimmern o. R., Germany, develops and produces production systems with integrated dispensing technology for bonding, sealing, foaming, and casting a wide variety of materials. The company also offers an encompassing range of automation solutions relating to all aspects of process engineering.
- > **RAMPF Composite Solutions** based in Burlington, Ontario, Canada, is a holistic composites supplier to companies in the aerospace, defense, transportation, medical, and green technology industries. The company offers a complete suite of services including composite part design and engineering, and metal-to-composite conversion engineering.
- > **RAMPF Eco Solutions** based in Pirmasens, Germany, develops chemical solutions for the manufacture of high-quality recycled polyols from polyurethane and PET waste materials. This company also designs and builds customized multi-functional plants for customers for the manufacture recycled polyols.
- > **RAMPF Polymer Solutions** based in Grafenberg, Germany, develops and produces reactive resin systems based on polyurethane, epoxy, and silicone. Its product portfolio includes liquid and thixotropic sealing systems, electro and engineering casting resins, edge and filter casting resins, and adhesives.
- > **RAMPF Tooling Solutions** based in Grafenberg, Germany, develops and produces board and liquid materials for cutting-edge modeling and mold engineering. The range of skills includes made-to-measure services and products such as pastes, large-volume and full-size castings for Close Contour models, and prototyping systems.

RAMPF has more than 850 employees and subsidiaries in Germany, the United States, Canada, Japan, China, and Korea.

All RAMPF companies are united under a holding company – RAMPF Holding GmbH & Co. KG – based in Grafenberg, Germany.
