**Wixom, MI, May 15, 2023. Outstanding mechanical and chemical properties, easy to process, high quality – RAMPF Group, Inc. is presenting its high-performance polyurethane resin RAKU<sup>®</sup> TOOL IE-3092 at the Climbing Wall Summit in Pittsburgh, PA, from May 17 to 19 – Booth 201.**

RAKU<sup>®</sup> TOOL IE-3092 is the ideal choice for climbing hold production as it enables customers to create their own grips easily and efficiently without having to outsource to a manufacturer.

The polyurethane system is easy to process both by hand-batching and automated meter-mix processes. It is poured into a silicone mold and then cured in an oven.

The low-viscosity liquid casting compound exhibits

- > Excellent abrasion and impact resistance
- > Very fine surface structure
- > High molding accuracy
- > Long pot life

RAMPF Group, Inc., based in Wixom, Michigan, USA, is a market-leading specialist for

- > Mixing & dispensing systems for the reliable processing of polymers
- > Two-component polymer systems based on polyurethane, epoxy, and silicone
- > Modeling and mold engineering materials, in particular for the automotive, marine, and aviation industries
- > Machine bases, machine frames, and other structural components made from mineral casting (polymer concrete)

RAMPF Group, Inc., is a company of the international RAMPF Group based in Grafenberg, Germany.
